

5/16/09

Dear Katie,

A little note is not merely enough to explain how blessed I am to have had the opportunity to spend this last semester with you. You have been so supportive through all of it, whether through helping me get my class B license, encouraging me when I was afraid I couldn't handle the work load up here, or through wanting me to find what God has called me to for the coming semesters. Further, I can see that you live out what it means to lead through serving, to disciple others in Christ, and to love others always. Most of all, your love of God is evident through the way in which He blesses others through you daily — that is truly special. I am so excited to see how God will continue to use you and bless others through you even more than He already has. Thank you so much for being a leader, a mentor, and, most of all, a friend.

In Christ and as a High Sierra alumni (woohoo!),
